** Please use this timeline as an example for your projects. You will have one year from the time you receive your award (spring 2013) to complete your project. You may want to start the timeline with winter 2013 or spring 2013 and highlight milestones that will allow you to achieve the project over the next year. If it makes sense for your project, you may want to do your timeline by month rather than by quarter or tell us how much money will be spent at each milestone if not all spent at once.
